

Cuenta - System Manual

1. Introduction

Welcome to **Cuenta**, a comprehensive financial and organizational management system designed to streamline your budgeting, expenses, approvals, and data analysis. This manual provides an overview of the system's capabilities, architecture, and core modules.

2. System Overview

Cuenta is built with modern web technologies to ensure a responsive, secure, and intuitive user experience.

- **Frontend:** React (Vite), TailwindCSS, Framer Motion, GSAP
- **Backend/Database:** Supabase
- **Data Visualization:** Recharts
- **Document Generation:** jsPDF, html2canvas

3. Core Modules

3.1. Dashboard & Main Navigation

The **Main Dashboard** serves as the central hub, providing a high-level overview of the organization's financial health, pending approvals, and active projects.

- Real-time updates via Supabase.
- Quick links to common actions (New Request, Add Expense).

3.2. Financial Management

- **Budgets & Expense Tracking:** Create and track budgets. View detailed expense reports on the `ExpensesPage` and `ExpenseSummaryPage`.
- **Receipts:** Upload, parse (via OCR with Tesseract.js), and manage receipts.
- **Payroll:** Dedicated payroll management module for employee compensation tracking.

3.3. Requests & Approvals

- **Budget Requests:** Submit new requests for budget allocations (`NewRequestPage`).
- **Approvals Workflow:** The `ApprovalsPage` allows authorized personnel to review, approve, or reject requests with a full audit trail.

3.4. Projects & Documents

- **Projects/Events:** Manage ongoing projects, view approved projects, and associate budgets/expenses with specific events.
- **Documents & Narratives:** Generate, store, and review project design documents and annual narrative reports. Features rich document preview.

3.5. Analytics & AI

- **AI Analysis:** The `AiAnalysisPage` provides intelligent insights into spending patterns, budget utilization, and financial forecasting.
- **Data Visualization:** Interactive charts for monthly spending and annual reports.

3.6. User & System Management

- **User Management:** Administrators can manage user roles, permissions, and biodata.

- **Audit Trail:** The `AuditTrailPage` logs significant system events for security and transparency.
- **Public Transparency:** A dedicated module for sharing sanitized financial data with the public.
- **Backup & Restore:** Tools to safeguard organizational data.

4. Security & Access

Cuenta employs robust security measures:

- **Authentication:** Managed via Supabase Auth (Email/Password, OTP).
- **Role-Based Access Control (RBAC):** Restricts access to sensitive pages (like Payroll and Approvals) based on user roles.
- **Row Level Security (RLS):** Enforced at the database level to ensure users only access authorized data.

5. Getting Started

1. **Login:** Access the system via the `LoginPage`.
2. **Profile Setup:** Update your personal details and change your password via the `ProfilePage` and `ChangePasswordPage`.
3. **Dashboard Familiarization:** Explore the modules accessible from the sidebar layout.

6. Troubleshooting

- **Clear Cache:** If you experience UI issues, try clearing your browser cache.
- **Contact Admin:** For access issues or system errors, contact your system administrator.
